POLICE -COURT- CHANGES

Ramors That Potts, Harper and Ruff Are to Be Removed.

Conference of Judges and Announcements Expected in a Few Days. Justice C'Donnell a Candidate.

The atmosphere of the police court was filled this morning with rumors of dismissals and probable changes in subordinate offices in either branch of the court. Fears of this have been agitating the officials of the court, from the highest to the lowest, ever since the confirmation of Judges Kimball and Scott last week.

Nothing tangible took place relative to any changes until yesterday afternoon, after the conferences between the presiding judges of the two branches of the police court. The rumors then circulated could not be officially confirmed. One of the judges was seen last night, but stated that nothing definite had been determined. Nor would anything relative to changes intici-pated be considered until at a confer-ence, which will be held within the next four days. From a semi-official source, however, it was learned last night that certain changes among the higher attaches of the court had been in a general way considered.

in a general way considered.

This morning this runnor was substantiated in every way except by official confirmation. It was current runner around the courts this morning that certain changes had been practically decided upon but nothing defi-nits could be stated. The impression seemed to be gaining ground, how-ever, that Chief Clerk Joseph Potts, Deputy Clerk Joseph Harper, and Warrant Clerk Ruff are slated for the ax. These gentlemen fill three of the most lucrative positions in the ap-pointment of the court, and it is not surprising that a number of appli-cants are slared for their positions. Mr. James o'Donnell, a justice of the peace, is conceded to be the most for-midable candidate for the chief clerk-

ship.
It is stated that Mr. O'Donnell's back-ing for the chief clerkship is very strong and long, reaching from Columbus, Ohio, to Washington, and into the Senate chamber. His brother is a mem-ber of the Ohio legislature, and al-though said to be a silver Republican, toted for Hanna for United States Sen-ator. Originally Legislator O'Donnell, it is believed, was ourseed to Mr. Hanit is believed, was opposed to Mr. Han-na, but was induced by Mr. James O'-Donnell, of this city, to change his views and support him for United States Senator. Anyway, it is gener-ally believed that Mr. O'Donnell has a very strong pull with persons in high official positions, which is being brought to bear in his favor for his appointment for the chief clerkship of the police

With reference to this particular po-sition it is understood that the two judges are divided in their preference. A prominent young lawyer's name is mentioned in connection with the dep-

uty clerkship.
Up to the present time very little has been said about the minor places. It is known, however, that there are a number of applicants for these posi-

PULMONARY TUBERCULOSIS. CONSUMPTION.

BY P. BRETT MORGAN, M. D.,

Late Professor Physical Diagnosis and Lung Diseases in Haline-main Hospital College, San Francisco.

(Copied from the Pacific Coast Journal,)

Copied from the Pacific Coast Journal.)

I shall assume that of all malacies to which main is heir there is not one which for safficient cause excites such profound and widespreadintersel in the popular mind are does that of Pulmonary Constriction—phinsis pulmonatis.

Four funding years before the birth of our Lord. Hippocrates said that consumption was the most considerable of the discusses which then prevailed. The statement true then is true today.

Probably very few realize the enormous percentage of deaths in this country by consimption. I find in the proceedings of the Phitachiphia Medical Society (Vol. 1x. p.27) this very extraordinary statement. "According to the United States census reports for 1886 out of every 1,000,000 deaths 242,842 males and 302,046 females die of consamption." I have not the data for verifying or disproving this statement. But, in any case, I venture to say it is a matter sofficiently grave to command the most persistent and serious attention and research of the medical fraternity throughout the world.

Dr. Morgan mentions a large number of physicians, quoting their opinions on consumition. Drs. McLachian, of England, Koch and Nichards, of Chicago, Brehmer, who has a hospital in Gotbensdorf, Loudins, of New York, Mays and Da Costa, of Phila delphila.

Br. Morgan then goes on to say: "But I am of opinion that so man, not excert.

New York: Mays and Da Costa, of Phila, delphilas.

Dr. Morgan then goes on to say: "But I am of opinion that no man, not excepting Koch, has done so much in tracing the entire comercies of pathological phenomena involved in tubeculosis to their origin as has lir. Nevin B. Shade, of Washington, P.C. Andhisconclusion is that mal-autrition and mal-assimilation are indispensable to the development of tuberculosis."

NEEDLE CASE DECORATION.

Effective Design for Pen and Ink or Burnt Poker Work.

A very dainty design of needle case is shown in the stores that can be carried out in various ways. Two pieces of card, neatly covered with silk or satin, could be painted or embroidered on one outside panel with a functful design. Again, thin whitewood panels could be employed instead of card. and here pen and ink might be used to illustrate ideas; while in the burnt-poker work, now so popular, such a design would look particularly well. A tiny croll work should be added around the streme edge of such a case, and a smartlytied bow of bright-colored ribbon em-

ployed as a fastening. Just such an idea could be carried out in making a larger case, such as a portfolio for music or papers. In such case merely a narrow band of elastic should be placed inside to hold the papers or inusic in position, while many readers will remember that the inside of a needlebook should be well stocked with leaves downy fiannel and a sufficient supply of
